March 14, 2020

Dear Parents/Guardians,

We have a strong commitment to keeping every student and adult at Frewsburg Central School healthy and safe and therefore have done the following actions to help prevent the spread of disease:

1. We have reviewed our cleaning protocols within our buildings.
2. We have provided ample hand sanitizer throughout each building.
3. We have provided every classroom disposable wipes to use on shared items.
4. We have provided tissues to every classroom.
5. We have discouraged the sharing of supplies.
6. We have posted signs regarding effective handwashing in all of our classrooms and our teachers are reviewing these procedures with our youngest students.
7. We are providing breaks for handwashing and reminding students to wash their hands routinely.
9. We are thoroughly cleaning every bus after each route.
10. We are constantly monitoring students and adults for illness.
11. We are constantly monitoring the situation and recommendations of the Health Department.

In the event that school needs to close for an extended period of time, we have also begun preparations to keep some semblance of instruction and normal business. This includes:

1. Conducting a student survey regarding internet availability.
2. Encouraging students in grades 4-12 and teachers to bring their laptops and chargers home on a daily basis.
3. Preparing "to go learning packets" for grades Prek-3.
4. Preparing infrastructure to support virtual learning.
5. Preparing our business office to function remotely.
6. Preparing a plan for feeding students, if needed.

Please know that the safety of our students, adults, and community is very important to us.

Sincerely,
Shelly O'Boyle
Superintendent of Schools
